

Committee and Task Force

Appointment/Reappointment Packet and Process

Process ensures ample time for incoming appointees to attend their scheduled committee/task forces meetings that are held each year in conjunction with APPA's 20XX annual meeting.

How the process works:

Attached packet is updated and distributed each year to Regional Presidents/ and Regional Representatives at APPA's 20XX annual meeting.

Appointment/Reappointment listing is taken to Fall Regional Meetings and appointment/reappointments are determined and recommendations made to the President-Elect.

Regional President forwards their respective recommendations for appointments to an APPA committee by November 1 of each year so the APPA President-Elect can review and formally make the appointments on an annual cycle. Those committee members leaving their position before the cycle ends may be recommended for replacement to the sitting President as soon as is practical during that year.

Letters are prepared and the committee/task force listing is updated and sent to each appointment/reappointment inviting them to attend their scheduled committee meeting held each year in conjunction with APPA's 20XX annual meeting or those held as part of the "Integrated Strategic Planning" Committee meetings each January.
